Can you tell me if the updates go atomaticly or is there some where i can down load them help me thank you. This would be a fun game, however it seems to crash alot, and than you lose your progress.. Can you tell me if the updates go atomaticly or is

there some where i can down load them help me thank you. Can you tell me if the updates go atomaticly or is there some where i can down load them help me thank you. A very relaxing game. The dev is very active and responds to questions quickly. I anticipate this to get even better with future updates.
